In total, 1100 athletes from 71 nations are competing at the Winter Youth Olympic Games (YOG) in Lillehammer Norway for a total of 70 Gold medals.

The 2nd Winter YOG is taking place between Friday 12th & Sunday 21st of February 2016.

Men’s Monobob (New YOG Event)
Monobob consists of a single pilot who also acts as brakeman. Sleds are identical and distributed to the teams by random draw. Following the sled allocation, four individual runners will be selected by the athletes using the sled to make a set. The chosen runners will be used with the allocated sled for the duration of the event.
Both events are held over two heats. Results are calculated by adding the times of the two heats together with the lowest aggregate time winning.

The programme consists of at least six training heats to be held over three days. Pilots must have completed at least two valid practice heats without incident to qualify for the competition.

What are the YOG?
The Youth Olympic Games are essentially about competing, learning and sharing. They are a celebration of sport, youth diversity and the Olympic values of excellence, friendship and respect. They also exemplify the Fundamental Principles of Olympism, blending sport with culture and education. The vision of the Youth Olympic Games is to inspire young people around the world to participate in sport and live by the Olympic values.
